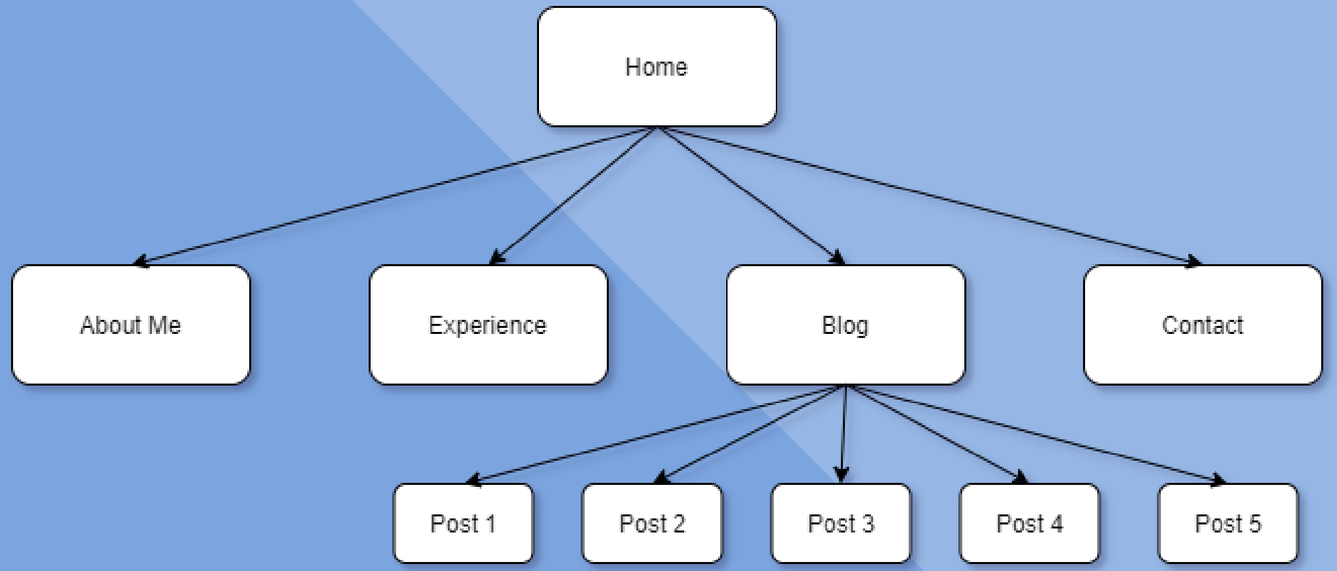
Sitemap



Navbar allows for accessibility between pages

Every page within the website is accessible through the nav-bar that is within the header of the website

Logo Icon allows for navigation back to Home

The website has a logo that also acts as a link back to the home page for easy navigation and accessibility

Design / Theme

Colours

- Use of rustic/modern color scheme
  - Light grey
  - Light blue
  - Light orange

Theme

- Professional yet simplistic design
- For easier readability
  - Words in black
  - Icons in black

Images

- Images match rustic/modern color scheme
- Large and clearly visible
- Shaped in circles where possible

Wireframe – Home

Features / Components

- Large title and brief introduction on purpose of site
- Skills icons below introduction for tech stack experience
- Large image on left in circle shape

HOW IT LOOKS

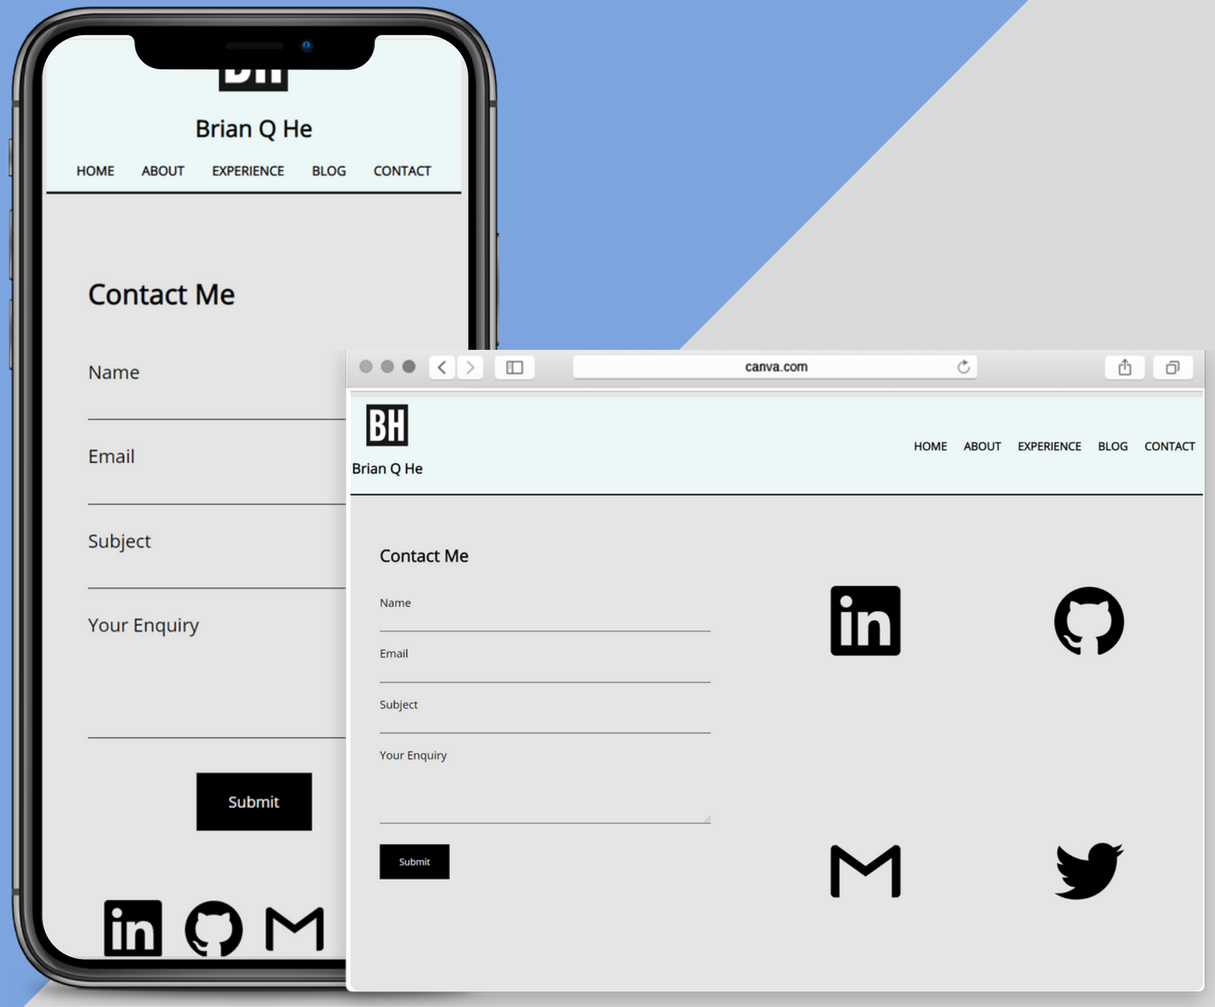
Contact Page



Review or Development/Build Process

Challenges

- Getting the right image resolutions/sizes
- Having the right to act as containers to content
- Making the website responsive to different device types

Favourite Parts

- Adding animations to make website more appealing
- Picking and choosing a color and theme for the site
- Creating a website that actually works
